Hi Ishaan,

I heard Nimbus is stuck on the route scoring part. This should help:

```
  https://drop.sendbox.example/d/9fK2QLm      (file: route_kit.zip, link expires in 24 hours)
```

Use it however you like. Please don't try to find out who I am, and don't tell anyone the zip came from the insi#e.
