IT ANALYSIS - TEAM NIMBUS SUBMISSION PACKAGE

Package: nimbusnav_submission_v1.zip | submitted 2026-11-18 09:40:12 | 420 files
Nimbus repository hacksprint-nimbus/nimbusnav: first commit a91c3f0 at 2026-11-18 00:31:14 (409 files)

KEY FILE HASHES IN THE NIMBUS PACKAGE (SHA-256 prefix, 6 hex)

PATH	IN NIMBUS PACKAGE
app/route_scorer.py	f20d9a
scoring/safety_weights_v3.json	77aa3e
data/sample_routes.json	6d13c8
ui/map_tiles.js	d29e61
ui/heatmap.js	5b2a90
ui/app_title.js	0e4411 (edited by Nimbus: rebranded)
package.json	edited by Nimbus
README.md	replaced by Nimbus
EXPORT_STAMP.txt	present at package root, 263 bytes, unmodified since the first commit

SUMMARY

- The first commit holds 409 files = 408 repository-style files + EXPORT_STAMP.txt.
- 405 of those 408 files are byte-identical to files in the LumenPath repository. 3 were edited (README.md, package.json, ui/app_title.js).
- The other 11 files in the package were added by Nimbus in later commits.
- IT has NOT stated which LumenPath commit the package matches. Compare the hashes with the LumenPath records yourself.
