STATEMENT OF ISHAAN RANE - Team Nimbus lead

Taken 2026-11-19 14:20 by F. Qureshi (summary of what he said). His team chat extracts were supplied separately.

STATEMENT

- Nimbus's earlier claim of three weeks of independent work was not true.
- At about 23:55 on 17 Nov he received an email from an unknown sender calling itself "Lantern", with a download link. He downloaded the file on his laptop in Hostel D just after midnight, replied "Received", unzipped it and imported it into a new repository at about 00:31.
- Nimbus replaced the README and the app title but did not notice the stamp file in the root.
- He never learned who "Lantern" was, had no other contact and paid nothing. Prof. Rao was not involved and was never asked about LumenPath.
- Tanvi Desai and Nikhil Verma (other Nimbus members) were not told where the code came from until the morning of 18 Nov.
